To Whom It May Concern,

I am happy to recommend Kimberly Maloy. Ms. Maloy worked with our junior high students this past fall. She was a guest teacher in our Health and Wellness class and taught the students about self-defense.

In the words of the students, she taught me to...

- Always be prepared
- Trust my instincts
- Be aware of my surroundings
- Use defensive techniques & protect myself

Not only did she empower the students with knowledge, but she had a very natural, appropriate way of talking to them. That is usually something we have to coach when outsiders work with adolescents, but we did not need to with her.

We feel very fortunate to have had Ms. Maloy as part of our Health and Wellness curriculum this year and highly recommend her to work with other adolescent programs.

Sincerely,

Lisa Klus
